

Our Future in Safe Hands

(*Imran Hussain*)
MQM USA

Hundreds of thousands turned out in Nishter Park Karachi to convey their message to the world ; the message was loud and clear

**“ Karachi is the city of peace loving people “
“ All United under the leadership of Altaf Hussain “**

In the past few years, Karachi has been portrayed as the violence-hit city and with Sectarian killings, suicide bombings being engineered by the Agencies and their patrons, the image of the city was badly projected on purpose around the world.

In the general elections which were held in 1988, Karachi and the Urban Centers of Sindh overwhelmingly voted for MQM and made it clear to the ruling Junta of Pakistan and the world that they are progressive , liberal minded people who believes in religious harmony , equality and tolerance.

After the tragic event of 9/11, the world was divided on two theories, one who were supporting the rule of religious fundamentalism and other who believes in true democracy.

The event of 9/11 changed the situation of the world dramatically and most of the Nations rallied behind the US and its allies in their war against global terror.

MQM was the only political force in this region which held a public rally in support of International Community against ongoing war on global terrorism and offered its unconditional support to the World Community.

Time and again, people of Karachi in particular and Sindh in general have rejected the concept of fundamentalism and religious extremism.

The people’s mandate for MQM in the general elections showed their willingness to go on the path of progress and prosperity. Time has proved that MQM is the only people’s party in Pakistan which is for the people and from the people.

Mr. Altaf Hussain is the only leader in Pakistan’s political arena who can guarantee the real transition of power to the grass-root level, thus ensuring Pakistan’s bright future.

As the true ideology of Mr. Hussain spreads in the Interior of Sindh after being successfully implemented in Urban Parts, now the whole of Sindh is showing Solidarity and Unity under the charismatic leadership of Altaf Hussain.

Sindh has been deprived of its due rights after the creation of Pakistan, the so - called struggle from the Nationalists and other political parties was just for

grabbing the power and not for the people of Sindh whereas the religion-oriented Parties used the name of Islam for their own benefits.

The people of Sindh are on the rise now and by participating in this huge public gathering, they have re-affirmed their faith on the leadership of Altaf Hussain.

MQM is always of the view that progress and prosperity in the Country can only come with consolidation of peace and stability. The political stability in the country open the doors for the International Investment but in Pakistan some religious parties for their vested interests have been trying their best to create the political chaos in the Country. They are raising the issues which are anyhow not even connected to the common people.

To fight the menace of Islamic Fundamentalism, Poverty and Illiteracy, the democratic process in the country needs to be strengthened.

Pakistan needs peace and stability domestically as well as with its neighbors. After three wars with India, the two nuclear rivals are now engaged in tense negotiations and International Pressure is on Pakistan to solve the outstanding issues with India peacefully and forever.

Pakistan's own stability and integrity is at stake despite being the front-line state in the Global war on terror.

After Mr. Altaf Hussain's visit to India and the roadmap he proposed for the peaceful solution of Kashmir and other outstanding issues, the presence of millions in this public gathering turned out to be a referendum in favor of Mr. Hussain and his policies.

Mr. Hussain while addressing this mammoth public gathering asked the Pakistani Government to open the Khokhrapar border without further delays or else he warned people of Sindh along with the people of India will open this border on their own.

He said that the round table Conference should be convened immediately and all the political parties must come with their suggestions for the resolution of Kashmir issue.

After testing his character time and again, people of Sindh have given full authority to Mr. Altaf Hussain to make the important and necessary decisions for their land's destiny and future.

..... They know their future is now in safe hands
