The Success Of Lahore Operation!
This Is The Time That The Terrorism Should Be Brought To An End.**

Media Cell, MQM USA; New York; March 30, 2009: The Patron-in-Chief, MQM North America, Dr. Khalid Maqbool Siddiqui, Patron, MQM USA, Ibad Rehman, Central Organizer, MQM USA, Kamal Zafar, and the members of the Central Organizing Committee MQM USA, on behalf of the workers and supporters of MQM USA, have congratulated the law enforcing personnel of Pakistan Army, Rangers, and Police Department on the success of Lahore Operation which has defied a huge act of terrorism. They said in their statement, issued this morning, that the terrorism is the main obstacle in the course of peace for this world and if not brought to an end this beautiful, modern, and sophisticated world will revert to Stone Age. The office-bearers of MQM USA also said that the terrorism, especially in Pakistan, is backed by so-called religious factions who have portrayed the wrong picture of the religion. They also said that this is also backed by those anti-democratic forces who by no means want to allow the democratic rituals to establish in Pakistan. They also congratulated the Government of Pakistan on their persistent and determined efforts to defy terrorist acts. They also paid high tributes to those martyrs who gave life in the Lahore Operation and said that their blood has written a history in the struggle against terrorism. They hoped, in their statement, that the culprits will soon be brought to justice.
