

“OPERATION AWARENESS”

ATTACKS ON ISLAMABAD AND MUMBAI ARE ACTS OF NAKED TERRORISM

(Altaf Hussain, Founder and Leader of Muttahida Quami Movement, Pakistan)

Dear Senator,

Being the supporters of the ideology of the third largest political party of Pakistan, Muttahida Quami Movement (MQM), and the residents and citizens of the Great Nation of United States of America, we all have seen and gone through the shock and pain of recent bomb blasts in Islamabad, Pakistan, and Mumbai, India. People of all the peace loving countries including United States of America severely condemn these attacks.

**BUT, do we all know that a similar situation is brewing in Karachi,
A powerful financial hub, a port city in the region, sometimes
referred as “Mini Pakistan”, literally sitting on a ticking time bomb?**

As our leader Altaf Hussain has been drumming this beat in his every speech and public addresses, which has been in the media from the past several months, but seems like it is falling on deaf ears of the newly elected government of Pakistan and may be overlooked by the international media and leaders of the nations who really think of Pakistan as a frontline state.

Senator, through this letter we would like to draw your attention on this very important issue, very important for us in United State of America because our troops are fighting terrorism in that very volatile region. We as ex-patriot Pakistanis and specially Karachiites are getting very concerned that most of the Talibans are fleeing from the flash zone of North Western Frontier Province of Pakistan and regrouping in the financial hub city of Karachi. They are thinking and trying to hold the control of Karachi, any terrorist act in Karachi will be a financial disaster pushing that country closer to become rogue and bankrupt. It is just a matter of time.

With all these realities up in the air, requiring your honorable attention, MQM, USA is launching an awareness campaign under the name of “Operation Awareness” in which the workers and leaders of MQM USA would be informing the legislators, policy makers, civil societies, human rights organization about the impending and looming danger of terrorism dangling on one of the biggest metropolises of the world, Karachi. We would like to meet you in person to discuss and share the other information we may have which will prove the urgency of the matter.

A meeting at your convenience would be highly appreciated as it is also the need of time and time is of the essence. Thank you.

Yours truly,

Ajaz Siddiqui,
Central Organizer
MQM, USA
