

A Member Of The National Coordination Committee Of Pakistan Tehreek e Insaaf and A Prominent Businessman From Rawalpindi Farrukh Rehman Joined Muttahida Quami Movement.

MQM Is Being Appreciated Nationwide And This Will Create An Impact On The National Politics: Federal Minister Iqbal Mohammad Ali, In A Press Conference In Parliament Lodges.

Islamabad, September 07, 2007 (Staff Reporter): After disagreeing with the policies and leadership of the Chairman of Pakistan Tehreek e Insaaf, Mr. Imran Khan, a member of the national coordination committee of Pakistan Tehreek e Insaaf and a prominent businessman from Rawalpindi, Mr. Farrukh Rehman casted his vote of no-confidence for Imran Khan by joining Muttahida Quami Movement. This joining was pronounced last day in parliament lodges in a press conference which was also attended by Haq Parast Federal Minister for Housing and Construction Mr. Iqbal Mohammad Ali, Haq Parast Federal Minister of State for Religious Affairs Dr. Abdul Qadir Khanzada, Deputy Organizers of MQM Punjab, Syed Yaseen Azad, and Mr. Naveed. Mr. Farrukh Rehman is a pilot by profession. While addressing the press conference Mr. Farrukh Rehman said that he joined Pakistan Tehreek e Insaaf to better the state of poor and underprivileged, but, unfortunately, Imran Khan instead of carrying out the party business on the democratic, political, and on the views aimed at bringing a change in the life of people, is running the party affairs as of a private limited company, where the self respect and ego of the workers are molested and their love for the nation and the country is maneuvered and used for some vested interests. He further said that for him and people like him the acquisition of power is not the goal, but to stop the misuse of the power and authority. He said this is very unfortunate that Imran Khan, who calls his party as a party for a change, has been standing with the symbols and elements of "status quo" and is supporting those elements for whom he always vowed to fight against and always claimed this to be the reason for coming into the politics. He said that Imran Khan had been a player & sportsman and his thinking has never gone beyond the that of a player, a sportsman, and a hero. He said that the ideological workers don't idolize personalities, their energies and their talents are used for the ideology. He said we are standing by the ideology, and we take the fervor and the agenda provided by Mr. Altaf Hussain as the voice of the poor and middle class. He said that he went through the manifesto and agenda. He said that he is extremely impressed by this manifesto and announced for his joining MQM. At this occasion the Federal Minister for Housing and Construction said the way MQM is welcome and appreciated nationwide will definitely create a huge impact on the national politics and 98% deprived people of the country would unite under the banner of MQM to fight for the change in the country. He said that this is clear gesture of a change that despite all negative propaganda against MQM, ideological workers from all parties of the country are joining MQM and it proves that MQM is a real national party and a party of the mainstream.
